Narrow Escape.

Last evening about 7 o'clock Miss Gussie Williams and Ada Torreyson were thrown out of a buggy in front of Gen. Clarke's, and had their faces badly bruised, and also suffered severe sprains. Dr. Lee pronounced the injuries not serious. The buggy was wrecked.

Remix-Sanity.

The show drew a large house last night and everything went in good shape with the accent on the shape. Sara the high kicker was all that could be expected, considering the fact that the ceiling was only 28 feet in the clear.

ROYAL

BAKING POWDER

ALL NORTH.

—Sheriff Williams, of Douglas, was in the city yesterday.

—The Curry Hose Co., got the first water on the fire yesterday and did effective work.

—Brown and Anderson took up some Government land back of Shaw's Springs last Fall, and a few days ago sold it at a good advance to a wealthy lady in San Francisco.

—A few days ago Mr. Hunneycut who purchased some silver quarters of the wrong date for \$1.50 apiece, purchased a silver watch of a boy who, prior to the sale, had extracted several of the wheels.

—For removing dandruff, Ayer's Hair Vigor has no equal. It restores faded and gray hair to its original color, stimulates the growth of the hair, and gives it a beautiful, glossy, and silken appearance.

—Father—Well, Thomas, you have graduated from college and are now ready for your life.

What will be your field?
 Son (thoughtfully).—Well, to tell the truth, sir, it's a little hard to decide between left and center.

—Ayer's Sarsaparilla is designed for those who need a medicine to purify their blood. No other preparation so well meets this want. It increases the appetite and rejuvenates the whole system. Its record, for forty years, is one of constant triumph over disease.

—Shoes are made so cheap in Europe that large quantities of them are imported to this country even under the present rates of duty. If the duty were removed, under the policy of free trade, American shoemakers must either go out of business or work at reduced wages.

For Home and Family Use.

Geo. T. Davis has just received fresh from the East, a lot of Baking Powder, the purest and best made; a new line of the best flavoring extracts.

Try the new Hawk Chop Tea.

All of these he sells at reduced prices.

To farmers, all extra parts of Buckeye Mowers always on hand. Try the finest smoke that ever came to Carson; \$2 per 100.

G. T. Davis is the agent. jy7tf

An Astonished Celestial.

The Austin Reveille says a Chinaman deposited some money in the bank Saturday and in the pile was a \$50 Confederate shipmaster. When the bill was rejected the Mongolian was so astonished that one could have knocked him down with a feather and not hurt him. The Chinaman is now on the warpath to find out who the Confederates were and what business they had to cheat him.

Furlong's Joke.

When Furlong came in from the bear hunt the other day and found no bear, he told Kahn, the electric light man that he tracked the bear to Little's, but was taken with cramps and had to come back. He loaned Kahn his horse and rifle and Kahn was out until nearly midnight after the bear before he began to realize how badly he was sold.

Smash Up.

Geo. Howell's team ran away from Keyser & Elrod's hay-yard yesterday and crossed the new railroad track to the Public Building twice. The rails were about a foot above the ground and the wagon was reduced to a total wreck. The horses were also badly injured.

WASHINGTON LETTER.

[From our regular correspondent.]

WASHINGTON, Aug. 3, 1888.

Senator Plumb from the Committee on Agriculture, has reported favorably to the Senate the House bill making the Department of Agriculture an Executive Department, has been stricken out.

There is no doubt of the passage of this bill, in fact, there is no opposition to speak of.

Quite a number of Congressmen will go over to New York to take part in the great demonstration given as a welcome to James G. Blaine on his return to his native land. It promises to be the biggest thing of the kind ever seen in this country, and so it should be, Mr. Blaine is worthy of it.

Senator Call has "let the cat out of the bag." He recently offered a resolution calling upon the Treasury department for information in regard to property once owned by Rebel Government.

In reply to that inquiry, a Treasury agent submitted a long inventory of ships, machinery, money etc., now in existence in the hands of foreign governments and private parties, amounting in value to many millions, and expressing the opinion that much of this property might be recovered by the United States.

Everybody wondered what was meant by this business, until this week Senator Call offered an amendment to the Sundry Civil appropriation bill, appropriating \$10,000 to be used in locating property belonging to the rebel government.

All this trouble had been taken to send a friend off on a foreign junketing tour, at Uncle Sam's expense. But it was a failure, for the Senate refused to adopt the amendment.

The Senate Committee is still hearing parties interested in the proposed tariff bill. They do not propose to do anything without fully hearing every side of the effect it is likely to have.

Senator Frye, of the Select Senate Committee on the Pacific Railroads, has reported with some minor amendments, the Outhwaite bill providing for a settlement with the claims of the Government against the Union Pacific Railroad.

The report accompanying the bill says:

"In the judgment of your committee it secures a very satisfactory settlement of the debt due from the Union Pacific and Central Branch-Union Pacific Companies, and the committee have every assurance that both corporations will accept its terms."

Senator Riddleberger, from the committee on Manufactures, has reported a bill to divide the surplus left from the appropriation for the Ohio Valley centennial, between the expositions at Richmond Va., and Augusta, Ga.

The direct tax bill, which was offered in the Senate as an amendment to the Sundry Civil Appropriation bill, was ruled out on a point of order, as general legislation.

No fears are entertained by the Democrats that Cleveland will veto the river and harbor bill.

Of course not. The Mills bill would not have been defeated in House had not Cleveland promised to sign the river and harbor bill. This pledge was given months ago.

Senator Stewart succeeded in getting an amendment to the Sundry Civil appropriation bill adopted, giving \$250,000 for the purpose of investigating the irrigation of our arid lands.

The Republican Congressional Committee are beginning the active work of the campaign. Mr. Goff, the chairman, and Mr. McPearson, the Secretary are both confident of a Republican majority in the House this year.

Representative Foran, of Ohio, a Democrat says he calculates that the next House will be Republican by at least fifteen majority.

Much interest is expressed here in the Indiana campaign. Representative Browne says the retirement of Ex-Governor Porter renders it well nigh impossible to say who the candidate will be.

—The circus litigation still continues in the Justice Court.

MORE WATER NEEDED.

The V. & T. Jimmey and Carson Fires.

The most rapid and direct way to put out a fire is by means of the V. & T. Jimmey. The engine is always ready to move, and is supplied with hose and pumps capable of throwing a large stream of water under tremendous pressure for about ten minutes. Then its tank becomes exhausted and it has to go back for more water.

Would it not be a good idea to supply the Jimmey with more hose at the city's expense, and also to erect water tanks at regular intervals alongside the two railroad tracks, so that in case of fire less time would be lost in retreating for a water supply?

This is a matter which the city trustees should attend to at once, as the pressure on the city hydrants is not sufficient to give the firemen a proper stream.

FIRE!

The LePorte Corral Burned.

Yesterday afternoon the shed of the LePorte corral in the Eastern part of the city caught on fire through some boys smoking cigarettes, and was consumed, together with three frame houses belonging to Mrs. LePorte, and considerable cord wood. The furniture was saved, and an intrepid woman rushed in and saved three valuable horses. The V. & T. Jimmey also took a lively hand in suppressing the flames. Loss \$2,000; covered by insurance.

Knocked Out.

A few days ago Billy McDonald, a Comstock boxer, was down here sparring with "Shorty" Kinkaid.

Mac began slogging pretty hard, to which "Shorty" objected, saying that he understood the match was only for points.

McDonald said he was unable to strike a lighter blow, and they went at it again.

"Shorty" then liberated his right and caught McDonald under the chin, which is technically known as "a stem-winder."

The Comstocker went to the floor senseless, and it took several buckets of water thrown on him to bring him to.

"Shorty" said that was the first time he ever "let go" his right in this State, and he did it through carelessness.

"Shorty" is a slim built man but very deceptive.

Where was He?

The APPEAL learns from the Sheriff that John Sweeny applied to the authorities last Saturday for a special officer to keep minors away from gambling games at the Caledonian picnic. An officer was detailed to go up and attend to this matter, and was paid for his work. That he neglected his duty is apparent from the fact that scores of young boys were about the gambling games all day, betting their money and being skinned out of it. It is a lasting disgrace to the city that such infamous work as swindling boys out of their short bits is allowed within the city limits, and if the societies which give the picnics will not put a stop to such work the city authorities ought to take hold of the matter and make an example of the wretches who run gambling games for children.

Hot Weather.

Friend has received two reports from his weather observers in Lincoln county. The observer at Reveille reports a temperature of 118 degrees, and the one at Eldorado Canyon reports a trifle over 113. The thermometer never went as low as 90 but once in the month.
